

# STREET SMART!

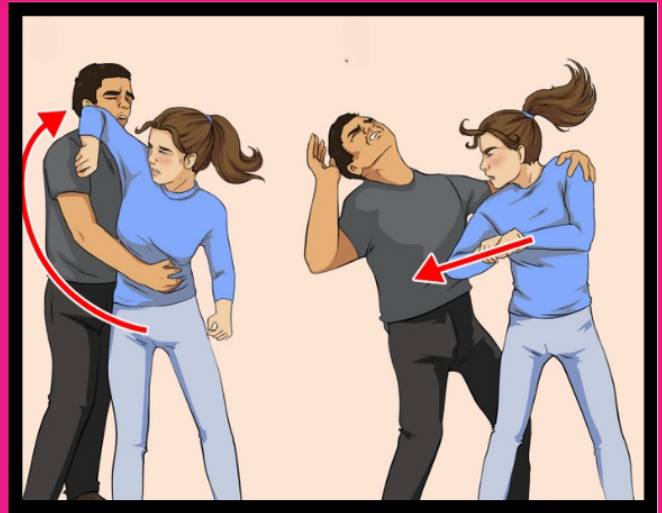

# SIMPLE SAFETY MOVES

DO TRY THIS  
AT HOME!

Step left or right and drop your weight

Step left or right and hard elbow up or down

## bus safety

- Offer a seat, but sit by the aisle so you can move if needed.
- If uncomfortable, head to the front and stay there.
- Don't exit with anyone who feels "off"; tell the driver or contact a parent.
- Better safe than polite—move if you need to.
- If unsure, ask the driver or an older passenger for help.

## walking at night

**NO ATTACKING  
YOUR BROTHER!**

- Ask a parent to meet you at the bus stop
- Know your route... best lighting, fastest way, safe points to seek help if needed
- Make sure someone knows where you are at all times
- Walk on the road... it has the best lighting (keep watch, avoid becoming roadkill)
